

Single Use Validated Sterile Corneal Surgical Shields

Order Products of Quality Without Compromise

Description:

Our Surgical Shields are designed to vault the cornea and include a silicone suction cup or a handle for easy insertion and removal. They are packaged ready to use in individual sterilized pouches. If you are operating around the eyes our corneal shields "protect the eyes of the patient and you". There are four sizes of Surgical Shields with suction cups or handles available to fit the globe requirements of any of your patients needs.

- **Pediatric:** 18 X 14 mm
- **Small:** 21 X 18 mm
- **Medium:** 22 X 21mm
- **Large:** 28 X 22 mm

Silicone suction cup included with non-handle style shield
